SUNDAY MORNING, SEPTEMBER 4, 1853. 1-17 Rev. B. JENKINS, D. D., of Shanghai, China, will preach at the McKendree Church this morn-

ing at 10% o'clock. We are authorized to announce J. W. Bent. a candidate for First Clerk to the Senate.*

Don't forget J. F. Dunron's sale, commencing Tuesday morning, Sept 6th.

T. J. Hough has just received a very handsome stock of gentlemen's furnishing goods which he is selling very low. He keeps also a great variety of ready-made clothing of the latest style.

We call the attention of our readers to the remarks following:

Save Your Racs!-The price of all kinds of paper has advanced considerably of late. While the consumption is daily and hourly increasing, we hear of no increase in the number of Mills, Manufacturers represent stock as scarce, and worth more

Paper, in various forms, contributes so largely to our happiness, and ministers to so many of our social and individual necessities, that it strikes our mind as aside from all other considerations, a duty incombent on us all, to save our rags, and place them in the way to the Mills.

We have heard people say they were accumed to offer rags for sale. We think it is a much greater shame to waste the material, without which we would be obliged, from necessity, to limit our consumption of paper. Though the quantity of rags furnished by each family be small, yet if all will | save them, the aggregate will be immense. This must be done, if the price of paper is to continue so that we may enjoy its benefits. If it is not made from the comparatively worthless material, manufacturers must use that which is more costly, and charge accordingly for paper. We say, then, to all sare your rags, and start them towards the paper mills.—Zanes. Aurora.

FROM THE CINCONNATI ENQUERER ? THE PACIFIC BAILBOAD.

It is with regret that we notice our friend of the Democrat at Louisville, vigorously opposing the plan of the government building a railroad across its territories to the Pacific-which, it is conceded, is the most important enterprise of the day-for in our judgment, neither its expediency nor constitutionality can be justly called in question. We make the following extract from a late number of the Democrat:

"There is very little difference of opinion among the editors of the Democratic party in the Southern States on the subject of the Pacific rail oad. They are against its construction by the Federal Government, with great unanimity. The Demo-cratic press of the Northern States has not generally spoken yet; but we apprehend a good deal of anaminity on this subject. The Democratic party will never commit the Federal Government either agement of such a work."

Now we beg leave to differ with the Democrat. in its opinion that the "great majority of the Democratic editors in the Southern States" are opposed to the Federal Government constructing a railroad through its territories-for we think, with the exception of a few in Virginia, that the most of them coincide with the views expressed on that subject by Messrs. Davis and Guthrie, in their Crystal Palace tour. Even the Charleston Mercury, the organ of those men who have heretofore been the most distinguished for their strict construction of the notions, is clear and decided in its opinion that the Government has the undoubted right to build the road proposed, and is only in doubt about its expediency. We apprehend that the Democratic press and the Democratic party in the Northern States are nearly or quite unanimously convinced, that there is nothing in the Democratic creed upon the subject of internal improvements that conflicts with the General Government, building a railroad through the territories of the United

States-that it is as clearly authorized by the constitution to do it as it is to erect a military post or Congress has exclusive sovereign jurisdiction in the territories, and can build a railroad there with as much propriety as any State can construct one through its own borders. It appears to us that the constitutional question is too plain to admit of argument or dispute. It is the duty of Congress to take measures for the common defence of the country. and protect any State by precautionary steps that is hable to invasion; and California and Oregon. separated from the Atlantic pornon of the confederacy, as they are, by an almost impassable wilderness, which would render succor exceedingly difficult and tardy by the General Government in case they were suddenly attacked by some hostile nower, have a right to demand that the national legisature shall guard against the contingency that we have alluded to above. No fortifications that could be built by the United States at San Francisco or

Astoria, or any other paint in those Territories, would be half to efficacious and effectual protection as a milroad from the Mississippi, which would blace them in speedy communication with the Atantic States, and enable the General Government to transport any number of men, supplied with the munitions of war, to an assailed or exposed point, that would be necessery to repol the force that managed the country with its presence. The Domocraf we suppose will not dispute that it would be entirely constitutional for Congress to construct ships and build forts for the military defense of California and Oregon, and we should like to know what distinction can be drawn between doing that and adopting any other measures, within its legitimate sphere, calculated to subserve the same purpose in a more certain and better manuer. No one we believe denies the right of General Government to establish and open a communication between the Atlantic and Pacific portions of the country, subject to its jurisdiction, if said route happens to be with out its own territories, and it is certainly very singular if it has not the same liberty to build a road over its own lands, where there is no pretense of any State having the least claim to sovereignty. From the western limits of Missouri to the eastern boundary of California, there is an intervening

distance of fifteen hundred miles of territory subject to the exclusive jurisdiction of Congress, over which it alone has the power to build a railroad or to provide for its construction, and to which the doctrine of State Rights has no application whateyer. There is not a particle of coust tutional ground for that party in Virginia, which is accus lomed to draw such excee ing minute and subtle distinctions between State and National rights, to stand upon in its opposition to the proposed great mational highways connecting the waters of the At-lantic with those of the Pacific, and if its hostility s continued it will have to be based upon princ les of expediency rather than constitutional of ctions. If there ever was a work eminently na tional in its character and in objects, which rise shove all local considerations, whose influence and effects would be beneficial to the whole Unio rather than any particular portion of it, it is the peculiar propriety why such a magnificent and gigantic project should be car ied out by the general overnment instead of being left to the chances of rivate enterprise, which if it was ever adequate to the task, would make of it a great hateful individual monopoly, managed to subserve private purposes, and not the good of the country. However favable we may be in general to having works of internal improvements carried out by individuals who manage them usually better than the government, we think that, in this lustance, the latter is better qualified for the task, and should by all means give it the preference. We trust that a more mature reflection will convince our friend of the Demonat of

the error of the opposite opinion. DEATH OF DR. A. C. ROBERTSON,-We learn that a letter has been received in this place automating the death, in New Orleans, of Dr. A. C. Rossarsov. formerly a resident here, of the prevailing epidem

H. G. FARRELL'S CELEBRATED ARABIAN LINIMENT

TRIUMPHANT OVER DISEASE. WHEREVER THAT GREAT MEDICINE called H. G FARREIL'S CELEBRATED ARABIAN LINIMENT, ha been introduced, it has performed the most extraordinary cures in the annals of medical history—every body who uses it once becomes its warmest friend—they not only keep it always on hand for the benefit of its truely use in cases of emergency, but recommend it to all their friends. It has been before the public for nearly ten years, and yet is daily declarate the public for nearly ten years, and yet is daily evoluting the virtues; many diseases have been curred by for which the proprietor had never recommended it; its narical virtues spreads through the land with the speed of magical virtues spreads through the land with the speed of lightning, and many, very many poor invalids who supposed their days on this earth were fast drawing to a close, have been by a persevering use of this invaluable Liniment HEALED, and now rejoice in the blessings of health, and the enjoyment of the beautiful world. Read this to believe, and not to doubt. Inquire of your neighbors whom you know to have used it, and they will tell you that no medicine ever discovered possesses the half of its extraordinary heating powers. The racking pains of rhoumatism and neuralize yield in a few minutes to its powerfully anodyne properties. "The lane are made to walk." Old sores, which raigia yield in a few minutes to its powerfully anodyne properties. "The lame are made to walk." Old sores, which have rendered the subject a loathsome thing to behold, are healed. The weak and trembling, from deranged state of the nerves, by the use of this Limment, rejoice an the recovery of their former health and strength. Many long standing affections of the liver, lungs and kiduer have yielded to its use after the various remedies had failed. It is very efficacious in curing the disenses of horses and cattle, such as sweeny, sprains, bruises, swellings, cramps, lameness, dry shoulder, splint, etc., and if used in the beginning, never falls to stop the further progress of fistula, poll-evil, ringbone and spaym.

This furnace is an Egaver Dam Creek, Dickson county, Tennessee, and the stack is the largest in the State, being 47 feet high. The furnace, except the stack is now being schullt, and will be ready to not to be being schullt, and will be ready to not to be being. rebuilt, and will be ready to put in blast by the lat of November. The route of the North Western Kailroad, as surveyed, passes immediately by the Furnace. The ore is oned, and the timber and ground admirably adapted

Creek, about three miles South of Charlotte. There is a good water power, and also good farming lands attached to this property.

Also, the Valley Forgeon Jones' Creek, and about 37,-00 acres of land. The iall is 28 feet, and the head of water immense. There are some very fine farming lands in this tract, and it is altogether a most desirable location.

Also, the Mill Creek property and Duck River ore bank in Hickman county, Tennessee. The Mill Creek sites, of which there are like a say present the best water property. which there are five or six, present the best water powers for the size of the stream that can be found in any country. The Duck River ore bank is the heaviest deposite of ore in the State, and the ore can be procured with less labor than at any bank in the country. It is within half a mile of

Duck River, and the lands around are covered with the best coaling timber.

Also, the Lower Tunnel, at the Narrows of Harpeth, in Davidson county, Tennessee, with ten acres of land for buildings and unchanery. It is unnecessary to speak of the water power at the Narrows of Harpeth. It is known to every one, and twenty-five years of experience enables the subscriber to speak with certainty of its great benefits and usefulness. It is, indeed, only to be seen to be appreciated.

Lastly, my Williamson Farm, on which I now reside, and which for beauty and fertility is second to none. The house is large and airy, and the out-buildings of the best description. It is intersected by the Southern Railroad, and also by the Nashville and Franklin Turnpike. It is 11 miles from Nashville and 7 from Franklin. It is a "meadow larm," watered by Little Harpeth, and the best evidence of its quality is the hay produced on it this year, which all who have seen it, pronounce it the best they have ever seen. It is altogether one of the most desirable tarms for beauty and profit that is in the South-west. It contains about 50

The above property is offered for sale, not for the purpose of profit or speculation, but simply from the fac that the subscriber's health, makes it necessary to rebece himself at subscriber's health, makes it necessary to rebece himself at the care, necessarily incident to so much real property to cited at different points, and renders him unable to give it that personal attention which it requires. Now exhibit and offer for sale a complete and desirable stock of Foreign and Demestic Dry Goods, Hats, User, Bonnets, Umbrelles, Bonts, Bregans, Shoen, Slippers, Garpet Bays, Writing and Wrapping Paper, &c., &c. In magnitude and variety this slock greatly exceeds any ever offered in this part of the country. The style and designs of our fancy Goods are unusually beautiful and attractive. The purchases have been made at the lowest points for each article, and with overy facility which even points for each article, and with every facility which expe-rience and large cash means could secure. The shipments were fortunate in meeting free navigation in the Ohio and Cumberland rivers; so that the cost of transportation is an xceedingly small item.

We are, therefore, able and determined to do better for

we are, threader, able and determined to do better for our customers and those who may feel disposed to patronize us, than they can do elsewhere. We want Feathers, Ginsing, Beeswax, Wool, Linsey and Yaru Socks, at their highest market value. ang 14—a rw &m H. & B. DOUGLAS & CO. JOSEPH F DUNTON.
